### Superintendent's Highlights

The District continues to improve plant facilities with a plant facilities levy that was passed in 1999. This past summer and fall an addition to Bear Lake High School was completed. The addition gave the high school a new weight room, wrestling room, and additional dressing rooms. It also provided an area for activities and future classrooms, if it becomes necessary, and the expansion of the cafeteria and kitchen area.

The District is now planning an addition to A.J. Winters Elementary School. The addition will include a full-size gym with a stage, and seating for activities in the gym or on the stage. It will be a welcome addition to the school after the many years of working in a very undersized cafeteria/activity area. There will also be an addition to the media center and computer lab.

A new rubberized running track was completed at Bear Lake High School. It was funded by the school district, community fundraiser and donations.

The high school volleyball team won the State Championship for the fourth year in a row. The young women also won the state championship in softball. The football team qualified for state competition and lost in the semi-finals. The academic team did well at state competition and our drama team finished second in the State.

It was a very good year for activities in the Bear Lake School District.

### Progress Towards Meeting District Goals

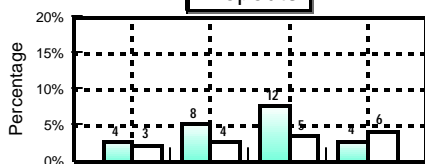

1999-00 Goals	Progress
Policy Revision	The revision of the District's policy manual has been an ongoing process for several years and it will continue to be an important process in the Bear Lake School District.
Physical Facilities	As the result of the patrons of the Bear Lake School District passing a plant facilities levy a new addition to the high school has been completed, an addition to the A.J. Winters Elementary School is on the drawing board and will be completed by the beginning of school next year.
Technology	The Albertson Grant money has purchased many new computers for the School District and has added a great deal to the computer technology of the schools. We expanded our reading program by placing the Waterford Reading Program into the first and second grades in the elementary schools.
Academics	The implementation of the State IRI reading assessment has given us a benchmark for the District in reading. Approximately 20% of our students, including Special Needs students, failed the test. We have implemented a summer reading program to assist in getting all our students to grade level. The implementation of the Waterford Reading Program should also help in getting all students reading at grade level. The Accelerated Reading program still remains a very strong program in the district. With the increased teacher training, students are showing steady improvement in reading.
